DOCUMENT IMAGING

An estimated 40-60% of an office worker's time is in handling paper, costing business' hundreds of dollars per document to file, locate, copy or recreate documents if lost. Improving efficiency in document management could result in a recovery of thousands of dollars to be applied to other areas.

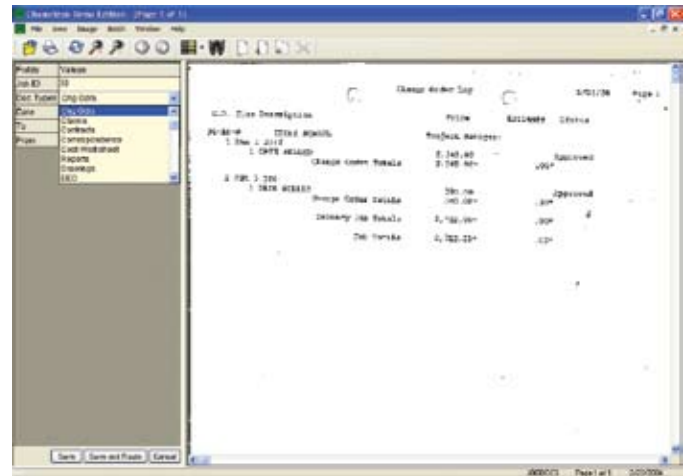

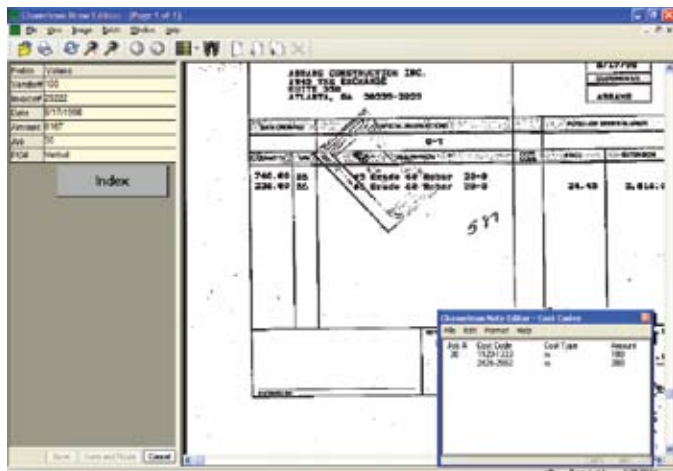

Take The Paper Hassle Out Of Your Business Operations With Chameleon

Chameleon Document Imaging™ for StarBuilder provides secure, digital images of paper and electronic documents and serves as a central repository for all the documents you rely on to run your business. By removing paper from your daily operations, Chameleon™ prevents lost records, saves storage space, manages records easily and ultimately improves staff efficiency.

Chameleon™ from Construction Imaging Systems is designed specifically for construction and is integrated with StarBuilder for:

- **Routing and Archiving of A/P Invoices**
- **H/R and Payroll Documents**
- **Costplus/T&M/CAM billing**
- **Construction Document Management**
- **OEM Manuals and other applications**

Chameleon™ provides standard virtual file cabinets for A/P invoices, Job Files, H/R files with the capability to build your own cabinets. Chameleon™ is presently integrated with A/P for pulling data to file the invoice automatically in Chameleon™ as well as when in StarBuilder giving users the ability to view the invoice image while in the StarBuilder screen.

The invoice, any notes such as the voucher, as well as the indexes can be viewed. Once an invoice has been entered into Chameleon™ and routed for approval, it is now ready to be imported into StarBuilder. The invoice displays in the AP Imaging Import grid and is eligible for import and update in the AP module of StarBuilder.

Documents can be scanned and indexed by:

JOB #	DOC TYPE	TO	FROM	DATE
-------	----------	----	------	------

Also drawings, Excel spreadsheets, Word documents and others for which you have a viewer can be stored.

Image Applications in Construction
